## 10 Things You Must Know About Handling Your Money In Las Vegas

Copyright © 2006 [Karin Manning](#)

Are you planning a Las Vegas vacation?

If so, then you need to know the way to handle your money in Las Vegas. Las Vegas isn't called the city of "lost wages" for nothing. If you're not careful, it's almost like your money just slips through your fingers almost like magic.

Did you know if you take out your money at one kind of ATM you could lose the same amount of your withdrawal in fees? It's important to always be aware of the fees that are involved whenever your money changes hands in Las Vegas. If you are ever in doubt then simply ask a local. They'll know the places to go and the places you should avoid.

If you don't know how to handle your finances in Las Vegas, chances are you will end up a lot worse off in your hip pocket.

A little pre-planning and research will ensure that you pay the very least that you have to to exchange foreign currency, cash cheques and to get a cash advance.

Of course, if you're on vacation the last thing you want to do is to get a high interest loan while away only to return

back home from your vacation destination owing the original amount of money you borrowed PLUS 100 percent interest or more.

Here are some helpful tips for handling your money on your Las Vegas vacation.

1. Travellers cheques are not a problem at casinos, restaurants, hotels and shops in Las Vegas. You will be required to show photo id for verification.

2. Every major casino is happy to exchange your foreign currency. They will of course charge you a fee in the form of a discount from the official exchange rate applicable and for this reason you will get the best deal by using a commercial bank for this kind of banking transaction.

3. Unsecured loans are difficult to obtain in Las Vegas.

4. Many casinos will give you a credit voucher to gamblers who apply for a loan in advance of their Las Vegas vacation.

5. Most large casinos have ATMS (automatic teller machines) where you can withdraw cash from your bank account or credit card account. If you are withdrawing a cash advance you must be aware that some financial institutions charge a very hefty fee for withdrawals.

6. Cheque cashing agencies specialise in interstate money orders, savings accounts and personal cheques. You will need

identification and the fee will vary depending on the complexity of the transaction.

7. If you are expecting a tax refund Las Vegas has instant tax refund stands. What you are essentially doing is taking out a short term loan at an extremely high interest rate. The cost of the loan can be as high as 100 percent! This type of transaction should definitely be used with caution.

8. Las Vegas pawn shops - once again, these should always be used with caution. Don't ever hand over something to a pawn broker that is of extreme personal value unless you can really live without it.

9. Always make sure your wallet is in a safe place. Vegas is also famous for pickpockets. Women should have purses that zip shut and have long straps on handbags so that they can go diagonally across your shoulder. Men should keep their wallet in their front pocket at all times. Keep your purse, wallet or bum bag with you at all times. Never put it down anywhere.

10. Keep a very close eye on your poker chips at casino tables. There are actually professional people who grab your chips when you are not looking.

## **The Complete Las Vegas Car Rental Checklist, Tips & Tricks**

Copyright © 2006 [Karin Manning](#)

There is a lot of money to be saved by taking the time to learn some tips and tricks for getting the best Las Vegas car rental for your money. Follow these simple car rental savings tricks and you will have more money to spend on your Las Vegas vacation.

Check with your credit card company to find out if it has free or discounted rates for the Loss/Damage Waiver coverage when you use that credit card for rental payment.

Make sure you have a valid driver's licence for driving around Las Vegas.

If preferable, ask for a car rental that has a trunk rather than a hatchback. The last thing you need is thieves being able to see all your personal belongings.

Call your existing car insurance company to find out what coverage you have under that policy when renting a car in Vegas. This way you will be able to decline some insurance coverage that Las Vegas car rental companies offer you and save on your hiring cost.

Always check a rental car when you first get into it. Point out any existing damage to the car before you pull out of the car space.

Make sure you are familiar with how that car operates. Locate things like the gas tank, wipers, lights, horn, direction signals, gear shift and make sure they are easy to operate and not faulty. Also make sure the car manual is in the car.

Make sure you have a good map and detailed directions.

Make sure you ask the car rental company the following 7 questions:

1. Are there any discounts available?
2. Do they charge an airport shuttle fee for customers who arrive by shuttle?
3. Do they give unlimited mileage and what are the conditions?
4. What are the booking requirements for the lowest rates?
5. Is there a surcharge for additional drivers?
6. Is there a limit to how far you can travel in the car?
7. Are there any drop off charges?

Las Vegas car rental charges can fluctuate as often as Las Vegas hotel room rates. They are usually their lowest two weeks before Christmas

and at their highest throughout January.

If your visit coincides with a convention you may not be able to get a rental car at all.

If you are planning a Las Vegas vacation during a quieter time of year you may benefit by using trying out these various Las Vegas car rental techniques:

Book your car weeks in advance. From 2 weeks before your arrival phone a selection of Las Vegas car rental companies to see if they can offer you a better deal. If they can, cancel your original reservation and book at the new lower rate.

Don't book a car rental until you get to Las Vegas. You may find that you don't need a car very much at any rate because you will be spending most of your time on the Strip. You may end up only wanting a car for one or two days. If so, have a look at Las Vegas magazines, newspapers and coupon books for the best Las Vegas car rental discounts. Phone around for availability when you have found the best deals.

Check the in-flight magazines for Las Vegas car rental coupons. You can usually get information about coupons by calling toll-free numbers of airlines. Reserve a car rental for the first 24 hours only. Make sure you can pick up the car at the Las Vegas airport and that you can drop it off at one of the locations on the Strip without paying any additional charges.

While in Las Vegas, look at all the coupon offers for Las Vegas car rental and reserve a car for the last 24 hours in Las Vegas. Make sure you can pick

up the car on the Strip and return it to the airport without penalty.
